This project was developed by the National Gallery of the Cayman Islands in 2015 and was first exhibited at the National Gallery's central facility in Grand Cayman. Its presentation in Little Cayman is part of an ongoing collaboration between the National Gallery, the Little Cayman Museum, and the Cayman Islands Legacy Fund (CILF) – a non-profit organization established by the Tibbetts family to honour the legacy of Linton and Polly Tibbetts; with support from the Little Cayman Beach Resort.
